SUPERSPOUT™

BY EMCO BUILDING PRODUCTS

INCREASES
WATER FLOW BY
50%

This 3x3 downspout and elbow, known as the Superspout has been engineered to be 50% stronger than other downspouts.

3" Square Design

- The water is swirled, like a cyclone, in the downspout which removes the debris as large as tennis balls easily.
- The rigid square design enhances the overall strength of the downspout and elbow.

Curb Appeal

- Clean design.
- Available in 33 colors that coordinates with soffit, fascia and rain carrying systems
- Paint finish.

Maximizes Drainage Potential

- The 3x3 downspout has 50% more drainage than traditional 2x3 downspout.
- Reduces clogging.
- Use for both residential and commercial rain carrying systems.

Maintenance-Free Finish • Strength & Durability of Metal • Matching & Contrasting Accessories • Increases the Value of Your Home • Wide Range of Colors • Made in the U.S.A.
